## SINGLE-HEAD CUTTING MACHINES

**40 MP is a single-head pendulum saw with downward movement of the  $\varnothing$  400 mm blade.**

The profile support table rotates manually at angles ranging from  $\pm 45^\circ$ , manual lateral tilting of the head ranges from  $0^\circ$  to  $45^\circ$  external. 40MP is equipped with horizontal clamping cylinders for correct profile clamping, spray blade lubrication and mechanical protection of the cutting zone.
